Tape, Jacquard And Stretch Ticking

“POST-CONSUMER” RECYCLED DENIM

## From items of clothing to mattress fabric

Choose more sustainable materials.

**JEANS Selection** is a new collection of mattress fabrics made from recycled, eco-friendly denim yarn. Available in a wide range of colours, these fabrics will give your mattress a distinctive look, with particular attention paid to the environment.

## THE IMPORTANCE OF RECYCLING TEXTILES

**Over 80 billion items of clothing are produced annually, generating more than 16 million tonnes of textile waste.**

The accumulation of textile waste is gradually increasing, placing a burden on the health of our planet. From the design and development stages through to production, we believe in the conscious use of materials, giving them new life in fabrics for mattress borders and panels.
